The screenshot displays the Innsys RMS interface. On the left, there is a user profile for 'Ivanovic, James' with fields for Company (Microsoft), First Name, Last Name, Address, Age, Sex, DOB, Nationality, Phone, and Email ID. The main area shows a 'Workarea' with a calendar for February 6, 2015, indicating 1 room available today, 5 check-ins, 2 maintenance, and 3 reservations. Below the calendar is a reservation table with columns for Room No., Room Type, and dates. The table shows reservations for rooms 100-105, including details like 'Delux' and 'Luxury' room types and specific check-in/check-out times.

InnSYS-RMS Edition is a complete Hotel Management Solution with Bar, Restaurant, Mini Bar, Banquets and multiple Warehouses

InnSysRMS is designed for All Type of Hotels / Resorts environment
